Report of Independent Auditors

The Board of Directors IT Holdings Corporation.

We have audited the accompanying consolidated balance sheets of IT Holdings Corporation and consolidated subsidiaries as of March 31, 2009, and the related consolidated statements of income, changes in net assets, and cash flows for the year then ended, all expressed in yen. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of IT Holdings Corporation and consolidated subsidiaries at March 31, 2009, and the consolidated results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in Japan.

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2009 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in Note 1.

IT Holdings Corporation and Consolidated Subsidiaries

Notes to Consolidated Financial Statements

1. Summary of Significant Accounting Policies

(a) Basis of Presenting the Consolidated Financial Statements

IT Holdings Corporation (the "Company") and its domestic subsidiaries (together, the "Group") maintain their books of account in conformity with the financial accounting standards of Japan, and its foreign subsidiaries maintain their books of account in conformity with those of their countries of domicile.

The accompanying consolidated financial statements have been compiled from the consolidated financial statements prepared by the Company as required under the Financial Instruments and Exchange Act of Japan and, have been prepared in accordance with accounting principles generally accepted in Japan, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

(b) Principles of consolidation

The Company has 43 subsidiaries (controlled or majority-owned companies) as of March 31, 2009. The consolidated financial statements include the accounts of the Company and all of its subsidiaries (together referred to as the "Group").

The accounts of overseas subsidiaries whose fiscal year-end is December 31 are included in the consolidated financial statements after making appropriate adjustments for any material transactions during the period between January 1 and March 31.

For the purposes of preparing the consolidated financial statements, all intercompany transactions, account balances and unrealized profits among the Group have been eliminated.

All assets and liabilities of consolidated subsidiaries are stated at fair market value as of the date of establishment of control.

Investments in two non-consolidated subsidiaries and six affiliated companies are accounted for using the equity method.

Business Risks

Monetary assets and liabilities denominated in foreign currencies are translated into yen at the exchange rates prevailing at the balance sheet dates, except for assets and liabilities hedged by forward foreign exchange contracts.

All revenues and expenses associated with foreign currencies are translated at the rates of exchange prevailing when such transactions were made. The resulting exchange gains and losses are credited or charged to income.

Assets and liabilities in foreign currencies of the foreign consolidated subsidiaries are translated into yen at the rates of exchange in effect on the balance sheet date. Resulting translation differences are included in foreign currency translation adjustments or in minority interests of net assets.

(d) Cash equivalents

The Group considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents on the consolidated statements of cash flows.

(e) Securities

Securities held by the Group are classified as either held-to-maturity or available-for-sale securities. Held-to-maturity securities are carried at amortized cost. Available-for-sale securities with a determinable market value are stated at fair value with any changes in unrealized holding gain or loss, net of the applicable income taxes, are included directly in net assets. Available-for-sale securities without a determinable market value are stated at cost. Cost of securities sold is determined by the moving-average method.

Inventories

(f)

Merchandise and finished goods are stated at cost, determined mainly by the first-in, first-out method. Work in process is stated at cost, determined by the specific-cost method. Raw materials and supplies are stated at cost, mainly determined by last purchase cost method.

However, the amounts of inventories stated in the balance sheet were computed by using the method that book values are reduced to reflect declines in profitability.

(g) Property and equipment

Buildings and structures are depreciated using mainly the straight-line method and machinery and equipment are depreciated using mainly the declining-balance method, at rates based on the estimated useful lives of the assets.

(h) Intangible assets

Intangible assets are amortized using the straight-line method over their estimated useful lives, except for computer software.

Expenses related to development activities of computer software, which are included in intangible assets, are amortized as follows:

i) Computer software for sale

Capitalized costs are amortized at the higher of the amount based on the ratio of the current year sales quantity divided by total estimated sales quantity over the estimated sales period (three years) or the amount calculated by the straight-line method over the remaining sellable period.

ii) Computer software for internal use

Capitalized costs are amortized using the straight-line method over the estimated useful life of the software, which is in the range of three to five years.

(i) Leased assets (as lessee)

Leased assets on finance lease transactions that do not transfer ownership are depreciated over the useful life of assets, which equals the lease term, by the straight-line method. Finance lease transactions which were contracted before April 1, 2008, are accounted for as operating leases. **Business Risks**

(j) Accounting for leases (as lessee and lessor)

Finance lease transactions other than those in which ownership is fully transferred to the lessee are accounted for in a similar manner to ordinary sales and purchase transactions.

(k) Impairment losses of long-lived assets

A decrease in the book value of long-lived assets is presented under other expenses as an impairment loss, in case of decrease in profitability for development, expected decrease in sales volume, or no future plans to use the assets.

Long-lived assets of the Group are categorized by business segment, areas or service descriptions. Real estate for lease and assets for specified projects are grouped separately.

(l) Allowance for doubtful accounts

The allowance for doubtful accounts reflects the best estimate of probable losses inherent in the accounts receivable balance.

The allowance is determined based on known troubled accounts, historical experience, and other currently available evidence.

(m) Accrued bonuses to employees

Accrued bonuses to employees are recognized at the estimated amount to be paid at the end of the fiscal year.

(n) Accrued retirement benefits to employees

Accrued retirement benefits to employees represent the estimated present value of projected benefit obligations in excess of the fair value of the plan assets. Actuarial differences are amortized by the straight-line method over 10 to 18 years within the average remaining service period of the employees from the next year in which they arise. Prior service costs are mainly charged to income when incurred.

Profile

Business Risks

(o) Accrued retirement benefits to directors

Certain domestic consolidated subsidiaries set aside a reserve to cover payment of directors' retirement benefits and therefore, record the estimated amount to be paid if all directors had retired at the balance sheet date, based on internal regulations.

(p) Income taxes

Deferred income taxes reflect the tax effect of temporary differences between asset and liability amounts that are recognized for financial purposes and the amounts that are recognized for income tax purposes. These deferred taxes are measured by applying the enacted tax rates and laws, which will be in effect when the differences are expected to reverse.

(q) Distribution of retained earnings

Dividends and other distributions of retained earnings are resolved by the General Shareholders' Meeting held subsequent to the end of the fiscal year. Distributions are reflected in the consolidated financial statements for the following fiscal year.

(r) Hedge accounting

Interest rate swaps that qualify for hedge accounting and meet specific matching criteria are not re-measured at market value, but the differential to be paid or received under the swap agreements are accrued and included in interest expense or income. In addition, the Group uses exceptional treatments permitted for interest rate swaps.

The Group assesses the effectiveness of interest rate swaps by comparison between total cash flows of debts to be hedged and those of the swaps as hedging instruments, except for the interest rate swaps accounted for by exceptional treatment.

(s) Amortization of goodwill and negative goodwill

Goodwill and negative goodwill are amortized on a straight-line basis over an appropriate period, whose length is determined by examining the conditions of each subsidiary (within 20 years), from the next year in which they arise. If the amount is not significant, goodwill or negative goodwill is charged or credited to income when incurred.

(t) Accounting for consumption taxes

Consumption taxes are not included in revenues and expenses.

IT Holdings Group Corporate Data Amounts in U.S. dollars are included solely for the convenience of readers outside Japan. A rate of \$98.23 = US\$1, the rate of exchange on March 31, 2009, has been used in translation. The inclusion of such amounts is not intended to imply that Japanese yen have been or could be readily converted, realized or settled in U.S. dollars at that or at any other rate.

5. Revaluation of Land

Pursuant to the "Law Concerning the Revaluation of Land" (the "Law"), land used for the Company's business operations was revalued on March 31, 2002. The income tax effect of the difference between the book value and the revalued amount has been presented under liabilities as "deferred tax liabilities for land revaluation" and the remaining balance presented under net assets as "revaluation of land" in the accompanying consolidated balance sheet.

Revaluation of land was determined based on the official prices published by the Commissioner of the National Tax Authorities in accordance with Paragraph 4, Article 2 of the "Enforcement Ordinance Concerning Land Revaluation," with certain necessary adjustments.

The carrying value of the land after revaluation exceeded its fair value by ¥508 million (\$5,168 thousand) as of March 31, 2009.

(a) Outline of retirement benefit plans

The Company and certain of its consolidated subsidiaries have pension plans, including a corporation pension plan based on the defined benefit pension law, a defined contribution pension plan, a tax-qualified pension plan, and an unfunded defined benefit plan with lump-sum payment.

Enterprise retirement allowance mutual aid scheme, which certain small consolidated subsidiaries have joined, is excluded from the calculation of the projected benefit obligation.

In addition, certain consolidated subsidiaries joined a welfare pension fund plan involving other companies. As it is extremely difficult to make a reasonable estimate of the amount of pension assets in the welfare pension fund attributable to contributions, the welfare pension fund is excluded from the calculation of the projected benefit obligation.

(b) The following tables set forth the funded and accrued status of the plans, and the amounts recognized in the consolidated balance sheet as of March 31, 2009, for the Company's and the subsidiaries' retirement benefit plans:

| Net assets | 1,541.17 | 15.69 |
| Cash dividends applicable to the year | 32.00 | 0.33 |

Basic net income per share is computed based on the net income available for distribution to shareholders of common stock and the weighted-average number of shares of common stock outstanding during each year. Diluted net income per share is computed based on the net income available for distribution to shareholders and the weighted-average number of shares of common stock outstanding during each year after giving effect to the dilutive potential of shares of common stock to be issued upon the conversion of convertible bonds and the exercise of stock options.

Amounts per share of net assets are computed based on shareholders' equity and the number of shares of common stock outstanding at the year end.

Cash dividends per share represent the cash dividends resolved by the general shareholders' meeting as applicable to that year, together with the interim cash dividends paid.

(c) Significant non-cash activities

The Group acquired assets and obligations on finance lease transactions, both amounting to \$1,528 million (\$15,555 thousand) during the year ended March 31, 2009.

23. Segment Information

(a) Industry segment information

The Group responds to customer needs through the supply of a comprehensive range of information services ranging from information system planning through software development, hardware selection, and system operations. As the Group's marketing policies do not separate these operations into industry segment classifications, industry segment information is not disclosed.

(b) Geographic segment information

Since both the domestic share of net income and total assets for all segments exceed 90%, geographic segment information is not disclosed separately.

(c) Overseas sales

Since the overseas share of consolidated net sales was less than 10%, overseas sales information is not disclosed separately.

24. Business Combination

(a) Business Combination through Establishment of Joint Holding Company

Seeking to fulfill corporate social responsibility issues and contribute to the realization of a better IT society, while improving group corporate value as leading companies in the information services industry, TIS Inc.(TIS) and INTEC Holdings, Ltd.,(INTEC) established the joint holding company, IT Holdings Corporation, on April 1, 2008, through stock transfer. Consequently, TIS Inc. and INTEC Holdings became wholly owned subsidiaries of IT Holdings Corporation.

(i) Outline of holding company

| i | Company name: | IT Holdings Corporation |
|-----|-----------------------------|--|
| ii | Location of Head Office: | Toyama Prefecture |
| iii | Representatives of company: | Tetsuo Nakao, Chairman |
| | | Susumu Okamoto, President |
| iv | Capital stock: | ¥10 billion |
| v | Business activities: | Administrative control over its subsidiaries |
| | | and the affiliated groups and execution of |
| | | related business activities. |

- (ii) Transfer ratio for stock with voting rights and ratio determination
 - i) Transfer ratio for stock with voting rights

One share of common stock in the holding company was allotted and delivered for each share of common stock in TIS Inc., while 0.79 share of common stock in the holding company was allotted and delivered for each share of common stock in INTEC Holdings, Ltd.

ii) Ratio determination

In the interest of each company's shareholders, a third-party opinion was requested to ascertain the fairness of the stock transfer ratio. TIS Inc. named Nomura Securities Co., Ltd., as its financial advisor, and INTEC Holdings, Ltd. named Mitsubishi UFJ Securities Co., Ltd., as its financial advisor. The two companies deliberated the respective third-party opinions and agreed that the ratio was appropriate.

iii) Voting rights after business combination

TIS Inc. 53.8%

INTEC Holdings, Ltd. 46.2%

The ratios represent the equities in IT Holdings Corporation held by shareholders of each company.

iv) Accounting for business combination

Judging from considerations given to shareholders, voting rights ratio and nonexistence of controlling relationship other than voting rights, the business combination was accounted for as a pooling of interests not as an acquisition, in conformity with Japanese Accounting Standards for Business Combinations.

v) Assets and liabilities succeeded from both companies
