Details

1. Reason for Acquisition of Stock and Tender Offer

The TIS INTEC Group seeks to realize sustained corporate growth and higher corporate value, guided by the slogan “Transformation to 2020 — Achieving structural transformation as a corporate family and taking the lead in finding solutions to social issues” that underpins Medium-Term Management Plan (2018-2020). Various measures are being pursued toward this destination. As part of this journey, TIS is pursuing an overseas business strategy aimed at becoming a top-class IT group in the ASEAN region and is driving robust expansion of business domains through capital and business alliances and other forms of cooperation with leading companies from the perspective of channels—that is, office networks and client bases—and technology in select business domains, namely, payment settlement, banking and enterprise resource planning.

MFEC, listed on the Thai stock exchange, is a leading provider of IT solutions to enterprises in Thailand. To TIS management, MFEC earned top marks for its high profile in Thailand, the service quality inherent in the solutions it provides to its clients, and its extensive, well-balanced client base. This solid reputation in the market led TIS to sign a capital and business alliance agreement with MFEC in April 2014. In the time since then, the two companies have deepened their understanding of each

other, which has underpinned TIS' efforts to strengthen their relationship through the creation of joint schemes across a wide range of pursuits as well as additional investment.

At this time, turning MFEC into a consolidated subsidiary, accelerating business restructuring at MFEC, and expanding the scale of the TIS INTEC Group's overseas operations hold major significance in forming a top-class IT group in the ASEAN region. Management sees the Tender Offer approach contributing to enhanced corporate value of the TIS INTEC Group and thus decided to acquire additional shares in MFEC and turn it into a consolidated subsidiary.
