

TIS INTEC Group Declares Support for TCFD Recommendations

Tokyo, Japan, June 4, 2021 –TIS Inc. (Headquarters: Tokyo, Japan), a member of the TIS INTEC Group, today announced its support for the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD).*1

All officers and employees of the TIS INTEC Group are striving to reduce environmental impact from all the Group's corporate activities. This effort is based on the Environmental Action Guidelines, part of the Environmental Vision and Policy established by the Group to help protect the global environment. The Guidelines state, "We shall strive to earn the greater trust of society by actively disclosing information both inside and outside the Group." In order to fulfill its Environmental Action Guidelines, the Group has decided to incorporate them into its management strategy, based on a recognition of the risks and opportunities posed by the climate crisis. Consequently, the Group has also decided to declare its support for the TCFD recommendations with the aim of earning the greater trust of society by disclosing climate-related financial information.

The TIS INTEC Group will begin disclosing information based on the TCFD recommendations, while working to further reduce emissions and decarbonize through its business activities.

* 1 The TCFD was established under the Financial Stability Board (FSB), an international organization aiming to promote global financial stability. In June 2017, the task force published its recommendations for companies to disclose information relating to the risks and opportunities posed by climate change. The TCFD recommendations emphasize the importance of companies recognizing these risks and opportunities, and incorporating them into their management strategies. <https://www.fsb-tcdf.org/>
